A Catholic Sponsorship Programme

Name: Diana Kashupa
DOB: 21 March 2012
Child Code: HOL1285 Ukraine (Pochaiv)

Diana lives with her mother and her grandparents in a three-room brick house belonging to her grandparents. Her father abandoned the family when Diana was born, and his whereabouts are unknown. Her mother is unemployed and struggles to provide Diana with basic needs and medical requirements.

Diana has been diagnosed with erythematous erythroderma and acute pyelonephritis. Her favourite pastimes are looking through books and playing with her toys.

Many children in Ukraine live in extreme poverty, with no hope of a productive future. In recent years, there has been a dramatic increase in unemployment and trouble within families. Sponsorship for children in this sponsor site provides educational support, including school materials and books, as well as proper nutrition.
