- ABJ is pleased to offer students assistance in registering for [CSTS2020 Construction Fundamentals](#). This safety course is an interactive nine-module online course that serves as a general construction site orientation for workers new to the construction industry. And, it takes only 2 to 3 hours to complete. CSTS courses are often prerequisites for any part-time job or career in the oil field and construction industries. This course is not eligible for high school credits but looks great on a resume. See our Off-Campus Coordinator Mr. Grondin for more info; email jamesg@eics.ab.ca or phone 780-905-4402
- Marge Johnson from Cree-ative Designs will be hosting a PEP session where she and an associate will help students create and decorate a traditional Mini-Drum. The students will learn the history behind the drums, how they were used in ceremony and the meaning behind the symbols used. The Mini-Drum can be kept as a prized possession or given as a gift to a loved one this holiday season. There are 20 spots available. The session will take place in Mrs. Millious' room (#221). Sign up on Powerschool before all spots are taken!
