

School to Parents Online Ordering Letter

Archbishop Jordan Catholic High School

is pleased to partner with **Castle Rock Research** to provide educational resources to help support student achievement.

Over the last 20 years, hundreds of thousands of students in Alberta have used THE KEY Study Guides and SNAP Workbooks produced by Castle Rock Research as part of their studies. We have recently been introduced to a digital resource from Castle Rock called SOLARO (Student Oriented Learning, Assessment, and Reporting Online). We find that SOLARO is a comprehensive digital study guide that provides all the benefits and features of THE KEY along with the added value of more robust content and many more practice questions. The same year-end tests from THE KEY are now available in the SOLARO courses for Mathematics, English Language Arts, Sciences, and Social Studies. [View SOLARO Video](#)

While Castle Rock will continue to support and produce THE KEY and SNAP, the focus moving forward will be on the many exciting benefits of SOLARO. We are working with Castle Rock to implement a new ordering procedure that will allow parents to order digital and print products online and still receive a preferred education discount (approx. 50%). To help reduce shipping charges, orders will be individually packaged, aggregated and shipped to the school for pick up by each student. Orders can be placed starting **September 23, 2020** and ending **October 9, 2020** with shipment following within a week after the closing date. After this date, the educational discounts will not be available. For SOLARO digital orders, activation will be immediate upon emailed confirmation.

The following resources are being provided for purchase:

The KEY Study Guides - Mathematics, English Language Arts, Science, and Social Studies courses across grades 3 to 12. These guides are ideal for review and assessment preparation and feature questions from past Diploma exams and Provincial Achievement Tests, where applicable. The correct answers and detailed solutions for questions are also provided. **Student Notes and Problems (SNAP) Workbooks** – Instructional content, practice exercises, and unit assessments covering the breadth and depth of select Science and Mathematics courses. **Problem Solved** – All of the questions from the respective SNAP books are presented along with the detailed solutions. **Class Notes** – An excerpt of each SNAP workbook that focuses students on the explanatory notes for each topic.
